

# Clinical Manager - Nursing

**Company:** CareResource Hawaii

**Location:** Honolulu, HI

**Job Type:** Full Time

**Category - CLINICAL**

## **JOB SUMMARY/RESPONSIBILITIES:**

Under the general direction of the Administrator, the Nursing Clinical Manager has oversight over all services in the Medicare Certified Division and oversees and coordinates nursing clinical services. The Nursing Clinical Manager works collaboratively with the Rehab Clinical Manager to ensure the patient receives coordinated, patient-centered care. The Nursing Clinical Manager ensures nursing services and all care to the patients are provided in accordance with patient and family goals, professional, legal, regulatory, accrediting, and administrative requirements and follows the performance improvement plan for the division. Requires the ability to collaborate with the community, patients, families, problem-solve, make sound judgment, embody the mission, vision, and values of CareResource Hawaii and The Queen's Health System.

## **PRIMARY DUTIES AND RESPONSIBILITIES:**

### **OPERATIONAL RESPONSIBILITIES:**

Supervises the daily operations and functions of nurses, home health aides, social workers, the Clinical Office Nurse, and the Nursing Clinical Team Leader.

Oversight of the services would include, but not limited to, providing a thorough orientation training program, assigning clinicians to patients, coordinating care, supporting the clinicians through joint visits or telephony, coordinating between physicians, vendors, patients/families and CareResource Hawaii.

Coordinating referrals, coordinating assignments, assisting with continually assessing clinicians' plans for the patients to ensure the quality and safety of the patient.

Managing the complex, interdisciplinary care of patients by assisting the clinicians in resolving issues they encounter in the home.

Provide evidence-based nurse education and training.

## **MINIMUM QUALIFICATIONS:**

## **EDUCATION/CERTIFICATION AND LICENSURE:**

1. Bachelor's degree in nursing
2. Associate degree in nursing with a bachelor's degree in a Science or Business Administration and 2 years' experience as a Medicare Certified Home Health Nurse.

**EXPERIENCE:**

1. In addition to the educational requirement, three (3) years' experience as a Medicare Certified Home Health Nurse, preferably in a comparable institution.
2. One (1) year supervisory/leadership experience.
3. Knowledge of discipline-specific therapy theory and practice in their field to treat patients.
4. Knowledge and use of medical equipment and instruments to administer patient care.
5. Skill in identifying problems and recommending solutions.
